

Service Hours Addendum

I understand that having an athlete participate in Christian Homeschool Athletes of North Texas I must complete my required service hours each home game week. This will include but not limited to EACH parent serving a minimum of one half of 1 football game. The recommendation is for middle school parents to volunteer during the varsity game and the varsity parents to volunteer during the middle school game.

In addition to my listed service hours above I will be expected to assist with setup or clean up based on which team my athlete is assigned to. Middle school parents shall arrive at the assigned time to assist with the setup of the game. Varsity parents shall remain after the varsity game to assist with the clean up. This includes but is not limited to banners, concessions equipment , tickets, football and cheer equipment, food and beverage coolers and any other signs or materials used.

Finally, should EACH parent not serve their minimum service hours, the athlete will be required to fill a position as assigned by the Service Hour Coordinator. This may include the athlete missing half or all of their game that week. Service hours allow us to have home games and therefor are a requirement prior to athletes participating in their game.

I understand it is my responsibility to coordinate with other families to fill my allotted position in the event I am unable to serve for any reason. Inability to find a substitute should be discussed with a board member no less than 48 hours prior to gametime. Failure to serve may result in fines or other actions.
